

## THE GAZETTE.

WEDNESDAY AUGUST 17.

The anti-prohibition majority in Texas is climbing up to the old democratic figures, which under the rule of builders, average about 100,000.

Prince Ferdinand is on the Bulgarian throne at last, but he doesn't overrate the security of his position, and has insured his life for 2,000,000 florins.

The round trip fare between Chicago and St. Louis for Northwestern C. A. R. delegates to the national convention at St. Louis, has been fixed at \$6. Cheap enough.

The vote in Kentucky at the recent election was larger than any ever before cast in the state, and the democratic majority was the smallest since the war. There is something exhilarating in these facts.

The Missouri state convention of the Knights of Labor at Sedalia voted down a resolution demanding the repeal of the laws on whisky and tobacco. The order had previously repudiated socialism and anarchism.

Miss Modjesko declared some time ago that she would never play "Julius" again until she was a grandmother. She now fills that honorable role, and will naturally be expected to resume the former one.

Senator Sherman and party left Tacoma, Washington Territory, Tuesday morning for Vancouver, British Columbia, whence they will return home over the Canadian Pacific. Mr. Sherman will get back in plenty of time to make the Ohio campaign here.

The reported "Indian uprising" near Meeker, Col., appears to be absolutely over-stated by correspondents eager for sensation. Gen. Crook, commander of the department of the Platte, says Crook, the Indian leader, has a following not exceeding twenty men.

The vote in Utah on the new constitution at the recent election was a light one. Up to a few days ago there had been reported in the Salt Lake press only 5,841 votes and 98 yeas. The total number of votes registered in the territory for this election was about 20,000.

Paul Ostrowski, 17 years old, living in Milwaukee, was shot and killed Sunday afternoon by August Herko, a dock laborer. The latter was shooting at a target at National park when Ostrowski came within the range of Herko's rifle. He was hit in the region of the heart and died soon afterward.

The Dow liquor law of Ohio has closed more than 5,000 saloons in that state. The prohibitionists are against the law because it has not closed more, and the whisky sellers are again at it because it has closed so many, but the two classes will require all right in the next campaign as they have in Wisconsin, to defeat republican nominees.

"The Boston Journal" celebrates itself upon the fact that less than one per cent of the people of that town witnessed the glorification of Sullivan the other night, and insists that Bostonians do not "generally run after prize fighters" and are not "given over to vulgarity and brutality." But it cannot deny that the one per cent included the Mayor and numerous members of the common council.

The authorities of the several states of the Union have resolved to celebrate the centennial anniversary of the framing and promulgation of the constitution of the United States, at Philadelphia, on the 15th, 16th and 17th days of September, by suitable ceremonies, including military and industrial displays, and the delivery of an oration and poem.

A dollar a berth and living wages to porters will constitute the sum and substance of a bill to be introduced into the Ohio legislature in behalf of the traveling public. The Pullman extortion has already been too long endured. Wisconsin sailors can find a suggestion in this fact the reason from which might make them famous as lovers of their race.

The report of the United States geological survey gives the mineral statistics of the country for last year. The total value of our mineral products was \$165,000,000, a gain of \$17,000,000 over 1885. The gold product was \$35,000,000; the silver was \$21,000,000; copper was \$12,000,000. The great increase was in pig iron, which amounted to \$50,000,000.

In Jersey City, Sunday, a party of Germans were shooting at a mark in a cellar. One of the bullets went through a window and hit an Irish lad named Murphy, causing a dangerous wound. Seignrid Schneider, who saw the boy fall, rushed to his assistance, and was at once taken by a mob of Irishmen, who, supposing him to be the reckless shooter, threw a rope around his neck and were about to hang him when the police rescued him. Schneider had not been with the marksmen, his third-hand adventure fairly illustrates the manner in which mobs act out justice. Prudently many innocent persons are guilty once are lynched.

Daily reports of mortality show that Asiatic cholera is spreading through the coast towns of southern Italy. Most of the towns from which reports are received are on the eastern coast of Sicily, but from Messina the disease appears to have been carried northwards to Naples and to several places in the neighborhood of that city. Last year the first cases were found at Brindisi, and the disease was carried northward along the west coast of the Adriatic to Venice and thence into Hungary. This year its path will probably be on the other side of the peninsula. It is believed that

## FIXING THE BLAME.

The Disaster at Chatsworth, Ill., Due to Gross Carelessness.

### SECTION BOSS COUGHLIN'S BLUNDER.

Disobeying instructions. He Set the Fire That Burned the Bridge—The Coroner Jury told him Responsible.

### THE CAUSE DISCOVERED.

CHATSORTH, Ill., Aug. 17.—Timothy Coughlin seems to be the guilty man. Two witnesses before the coroner's jury yesterday afternoon clearly contradicted his testimony at material points. Coughlin has all along denied that he fired any gun or pushed within twenty rods of the bridge. Yesterday's evidence fixed the distance at sixteen feet. Coughlin was instructed to explode extra care because a heavy train would pass over the road late that night. In the face of this he ordered James Hamilton to fire the gun and a pile of weeds within a rod of the overcast James Taggart, the other witness, fired the train within 100 feet of the bridge and east of it. Hamilton swore positively that he started a fire on the south side of the track within sixteen feet of the west end of the bridge. He testified that the wind was blowing from the southwest. The wind blew directly from the grass where a row of dry weeds toward the bridge. The witness swore that every thing was very dry. When the workmen left the vicinity of the bridge the fires were still burning.

### ANOTHER WRECK!

The Chicago Fast Express Hurled From The Track Near Washington.

Engineer Hamilton Killed And Many Others Badly Wounded.

### The News of Explorer Stanley's Death In Africa, Is Confirmed.

A RAILROAD BOOZLE.

(Special to the Gazette.)

Chicago, August 17.—The St. Louis, Chicago and Cincinnati express on the Baltimore & Ohio road was wrecked early this morning near Washington City. One man was killed and a large number of others badly injured.

### STILL LATE.

(Special to the Gazette.)

WASHINGTON, D. C., August 17.—The train which was wrecked near this city left Chicago at 11:30 last night. It made fast time and the accident was caused by the train jumping the track while going around a short curve. The engineer, Charles Hamilton, was instantly killed. All the cars were heavily loaded and over twenty of the passengers suffered serious injuries. Several are at the point of death.

### NEWS FROM STANLEY.

(Special to the Gazette.)

New York, August 17.—A cable from Paris confirms the news of Henry M. Stanley's death. The death was reported some time ago, but as it seemed impossible for any word from Stanley's position to have reached this country in the short time given, the rumor was generally discredited.

### NORTHERN PACIFIC LANDS.

(Special to the Gazette.)

WASHINGTON, Aug. 17.—The Secretary of the Interior is preparing a decision relating to the indemnity claimants of the Northern Pacific Railroad Company. He reviews at length the company's construction of the law, which is in effect that its grant was of the measure of indemnity of land along the entire length of the road; that though the road necessarily ran through several political divisions of the United States and Territories it was in no wise controlled by such political divisions in its rights, privileges and the franchises acquired by its charter; that quantity of land lost along the route of the measure of indemnity which is to be selected not in any particular State or Territory, but anywhere in the ten-mile limit of the indemnity belt, which limit, like the grant, extends along the entire line of the road from terminus to terminus, and it can make no difference whether the loss is in Minnesota or Washington Territory the indemnity lands are equally available to the whole road and given to supply these losses.

The Secretary will not concur in these views. He will hold that Congress recognized the political divisions of the States and Territories when it gave the company ten alternate odd-numbered sections of land on each side of the line of the road when it passes through a State and twenty alternate sections when it passes through a Territory. The idea here is that the substitute of the granted land, and the same boundary lines apply to the one as to the other. The same distinction is preserved in providing for an indemnity belt, less being allowed in the States than in the Territories. The Secretary will say that in his opinion the indemnity claims of the company must be greatly reduced, and it will not acquire all the sections of land located within the indemnity limits, but that there would be lands to restore to the public domain. The Secretary will also hold that the company is entitled to but one indemnity belt of ten miles in width.

### RIDOLEBERGER RELEASED.

The Virginia Senator Let Out of Jail on a Doctor's Certificate, but Will Be Sent Back.

BALTIMORE, Md., Aug. 17.—A dispirited Ridoleberger, after delivering himself up Monday, held a levee with his friends on the porch of the jail. At noon yesterday he was let out, but arrested on the streets and brought back. At seven o'clock last evening he walked off again. The jailer made a grab at him, but the Senator walked off up the street without incident. Judge Newman was yesterday afternoon informed that the Senator's condition was such as to render confinement dangerous, and upon the report of three physicians who confirmed the information, the judge issued an order suspending sentence of ten days for contempt of court until such a time as Ridoleberger was in fit condition to be returned to jail. Friends of the Senator say he is not in a condition to know what he is doing.

You will notice how quickly a thoroughly successful article is imitated, and also that the imitations are without merit, as they are gotten up by unscrupulous parties. Beware of imitations of Dr. Jones' Red Clover Tonic. The genuine is sold by Prentiss & Evenden and promptly cures dyspepsia, constipation, bad breath, piles, pimples, acne and various diseases, poor appetite, low spirits, headache, or diseases of the kidneys, stomach and liver. Price 50 cents.

## WHOLESALE BOOZLEISM.

The Pinkerton's Declare Their Ability to Unearth Frauds in Any City of 60,000 Inhabitants.

CHICAGO, Aug. 17.—The municipal officers of this city are greatly alarmed, and anxiety is depicted on many countenances around the county and city buildings. The reason is the report that detectives are in the city for the express purpose of unearthing corruption in the various offices during the past ten years. Detective Cavanaugh, of this city, is authority for the statement that the Pinkerton's declare they can find fraud in any city of over 60,000 inhabitants. He further said these men ask only that their board be paid unless they discover fraud, when they will want compensation, as he puts it. Three capitalists are paying their expenses on the basis mentioned. The unearthing of frauds in Chicago and New York has prompted examinations in other cities, and the party here viewed says Detroit and Toledo are now being worked. Whatever may be the truth of this report, it had the effect of stirring up the county and city officials.

### Fighting Among Thieves.

New York, Aug. 17.—The creditors of Ives & Co. are disputing among themselves their respective claims in some cases. The fact has been developed that the hypothecation of \$1,250,000 of Dayton and Chicago distribution bonds was even a more complicated matter than at first appeared. There were first authorized to take up an equal amount of notes issued in connection with the construction of the road. They are not, therefore, a first lien on the road, for the notes still outstanding and the uncertainty to issue them had been restricted.

### Ice-Houses Overrun.

JEANSTOWN, N. Y., Aug. 17.—Ten large ice-houses and six freight cars were destroyed by fire at Jeanstown, on Chautauque lake, yesterday morning, involving a loss of \$70,000. The fire originated in the engine-house. The ice-houses were owned by Colonel C. S. Barrett, of Cleveland. The ice was the property of the Chautauque Lake Ice Company, of Pittsburgh. The property destroyed is insured for \$17,500.

### The Princess at Her Old Home.

CORINTHOS, Aug. 17.—The Princess of Wales, with her daughters, the Princesses Victoria and Maud, have arrived at Kalamitopoli. They were welcomed by all the members of the Greek royal family, and the King of Greece. A delegation representing the native artisans presented the Princess of Wales with a bouquet and an address.

### Sons of Veterans.

DES MOINES, Ia., Aug. 17.—The National encampment of Sons of Veterans commenced in this city yesterday. The first meeting of the encampment took place in the afternoon. What is known as the division council met and audited and passed accounts, and took action on financial matters.

### Death of an Ex-Congressman.

MONROVIA, Pa., Aug. 17.—Judge B. Markley Boyer, present Judge of the Montgomery County court and ex-Congressman, died suddenly of apoplexy at his home yesterday afternoon.

### Warehouses Burned.

MAKON, Mo., Aug. 17.—The large agricultural warehouses and offices at Gordon & Moore, of this city, burned last night, together with nearly all the contents. Loss probably \$10,000.

### You will notice how quickly a thoroughly successful article is imitated, and also that the imitations are without merit, as they are gotten up by unscrupulous parties. Beware of imitations of Dr. Jones' Red Clover Tonic. The genuine is sold by Prentiss & Evenden and promptly cures dyspepsia, constipation, bad breath, piles, pimples, acne and various diseases, poor appetite, low spirits, headache, or diseases of the kidneys, stomach and liver. Price 50 cents.

Choice Lemons 25 to 40 cents a dozen at W. T. Vankirk's.

## VICTORIA'S RESPONSE.

The British Sovereign Answers President Cleveland's Congratulatory Telegram.

WASHINGTON, Aug. 17.—The following reply to the President's congratulatory telegram, sent on the occasion of Her Majesty's jubilee celebration, has just been received from Queen Victoria:

"Victoria, by the grace of God, of the Kingdom of Great Britain and Ireland, Queen, Defender of the faith, Empress of India, etc., etc., to the President of the United States of America, greeting. We have received from the hands of Mr. Phelps, the United States Minister at London, the letter which you addressed to us on the 10th of May last, and in which you convey your congratulations and those of the people of the United States on the occasion of the celebration of the British anniversary of our accession to the throne. We request you to accept our best thanks for the proof of friendship and goodwill which the people of the United States have shown to us in the letter which you have made of Mr. Phelps to be the interpreter of your sentiments on this occasion. We request you to accept in return our best wishes for your own anticipated happiness and welfare, and for the prosperity of the United States of America, and we recommend you to the protection of the Almighty. Given at our court at Windsor Castle the 14th day of July in the year of our Lord, 1887, in the fifty-third year of our reign. Your good friend, VICTORIA R. L."

### WORK OF THE FLAMES.

Statistics of the Losses by Fire During the Year—Some of the Principal Causes.

New York, Aug. 17.—The startling increase of the losses by fire throughout the country is attracting public as well as insurance attention. The aggregate of losses during 1886 was a round \$100,000,000, the largest annual loss on record except in 1884, when it reached \$110,000,000, and except, of course, the years of the Chicago and Boston fires. But the current year has far to look at its close upon the largest annual loss that has ever been. The average monthly loss thus far in 1887 has been over \$10,000,000, the total loss being \$28,000,000, making seven months' loss larger than the entire annual loss of any year previous to 1881, and that year it was less than \$10,000,000. An analysis of the statistics shows that the conclusion is responsible for a larger percentage of fires than any other known cause. Defective stoves came next, which speaks very badly for American neatness in the construction of buildings. The ratio of insurance loss in the aggregate loss from fire during the past ten years averaged 70 per cent. Now, including the prevailing opinion in the country, it does not appear that the loss is increasing more rapidly in proportion than the value of destructible property in the country.

### ENGLAND WORRIED.

She Does Not Want to Believe a Change Is Coming Over Her Subjects.

LONDON, Aug. 17.—Mr. Drummer, the new Conservative member for the Northampton division, took his seat in the House of Commons yesterday for the first time. He received an ovation from the Gladstonians. "The Daily News" referring to the Northampton election, says: "Gladstone has a Government a year, after its formation, met with such an emphatic rebuke. The Morning Post is depressed over the result, and urges the Conservatives to effect a better organization. It refuses to believe that the country is changing its mind in regard to home rule. The Standard now openly advocates a coalition Ministry. It admits that Mr. Chamberlain is doing for the bulk of the Liberals in the country through the anonymous position occupied by the Unionists."

### Base-Ball.

National League games on Tuesday resulted as follows: At Chicago—Detroit, 3; Chicago, 2. At Boston—New York, 3; Boston, 1. At Philadelphia—Washington, 0; Philadelphia, 7 (ten innings).

American Association: At St. Louis—St. Louis, 11; Cleveland, 4. At New York—New York, 1; Brooklyn, 8. At Baltimore—Baltimore, 1; Brooklyn, 5. At Cincinnati—Cincinnati, 4; Louisville, 2.

Northwestern League: At Detroit—Detroit, 7; St. Paul, 2. At Milwaukee—Milwaukee, 11; Eau Claire, 3. At La Crosse—Des Moines, 5; La Crosse, 3.

### A Strike Threatened.

DETROIT, Mich., Aug. 17.—Horace Field, a conductor on the city railway line, has been discharged by that company. He was a delegate to the Buffalo convention of street-car railway employees, and the latter contended that he was discharged because he attended the convention, the company having given notice that they would discharge any employee who took part in the proceedings of the Buffalo of Labor. The men asserted that Field was not a member of the union, and that he had not attended the convention.

### Six Murderers Sentenced.

ELIZABETH, N. J., Aug. 17.—Vice-Consul Mitchell reports that all the six murderers of the American, J. B. Duval, at Santa Rosa, have been convicted and are on their way to prison to serve a twenty-year sentence. A governor's pardon, which would have been granted to the man who had been convicted, was refused because he had been convicted of a crime.

### Death of an Old Settler.

GLENN, Ill., Aug. 17.—William Gray, a leading miner and proprietor of this section and one of the oldest settlers of the Glenn and Wisconsin lead region, died Monday night at his home in Benton, Wis., aged about sixty-five years.

New York Married Elder.

W. T. Vankirk has just received a carload of New York refined elder which he is selling very cheap, by the keg or gallon. It is the best hot weather drink in the world.

Shores and Alps of Alaska—new book, just received at Sutherland's.

The Best Family Medicine—A jug of W. T. Vankirk's pure cider.

Hundreds of novelties in wash goods at low prices at Archie Reid's.

Alexander on Matthew—a good commentary on the present Sunday school lessons. Very cheap, at Sutherland's.

An experienced nurse can be had at No. 164 South Main street.

A change of business plans induces Mr. C. F. Glass to dispose of his attractive home on South Main street. Its central location and surroundings make it especially desirable. 1 offer it for sale at price that will attract close buyers.

C. E. Bowles.

Our line of gold headed silk umbrellas just received is the finest in the city and the prices are low.

Antonie Kern.

Telephone Soap is a splendid washer.

THE GAZETTE.

WEDNESDAY AUGUST 17.

LOCAL MATTERS.

Two weeks from today, Wednesday, August 31st, the only extension from Jacksonville to Chicago this year will take place. The round trip will be \$2.75, good for four days, returning on any train. Trains will leave Jacksonville via C. & N. W. railroad at 7 a. m. Tickets will be for sale at King's bookstore, and in order to have an ample number of cars all who are to go will please purchase tickets by Tuesday noon, August 30th. The only low rate to Chicago this season.

Tr. the California fruits at Dennison's.

Wanted—Day boarders at Wm. Ferguson's Ocho House, South Main street. The "friends" are of the very best. Would like two more weekly boarders. Cooked ham and cold meats for sale.

California peaches, peaches, plums and prunes, fresh at Dennison's.

The best ice cream and cake will be served at the Inn to-night.
